PROJECTS

TRANSIT CHECK | Backend Developer

Jun 2014 | Waterloo, ON
A web application that informs users of the situational delays for TTC. It is a
community driven solution to the day-to-day problems of unexpected delays in transit
buses. Led the development with a team of four students at **BattleHack**. Worked with
Node.js and **MongoDB** to develop the backend.

WHITEBOARD | Frontend Developer

Mar 2014 | Waterloo, ON
Winner of the **Best Design Award** at Hack-Waterloo. A tool for developers to search
and connect with other developers. Created by a team of four students. Worked with
HTML, **CSS** and **jQuery** to develop the frontend as well as **Node.js** and **MongoDB** for
the backend.

BUBBLESCAPE | Android Developer

Aug 2012 – Sep 2012 | Brampton, ON
An original android game that will bring hours of entertainment for any player.
Created by a team of three programmers and a graphic designer. Managed using
Dropbox. Received **500+** installs on Google Play.

WORLD'S HARDEST GAME | Java Developer

Jan 2013 | Brampton, ON
A replica of the popular flash game, The World's Hardest Game programmed using
Java **Swing** and **AWT** libraries in addition to **Photoshop**. Developed in accordance
with the software development process: initialiation, planning, execution and
maintenance.

EXPERIENCE

TUTORJAM | Software Developer

May 2014 – Aug 2014 | Waterloo, ON
- Created the entire application process used by **1000s** of tutors to apply.
- Developed an end to end system allowing admin to edit, remove and publish
  tutor profiles from **SchoolTutoring** to the online tutor catalogue on WordPress.
- Added features on **YuJa** such as enabling users to upload audio files to learning
  channel and sending periodic digest emails.
- Worked with J2EE, EJB, JSP, JDBC, PHP, HTML, CSS, jQuery, JBoss, AWS.

STAPLES | Sales Associate

Jul 2012 – Aug 2012 | Waterloo, ON
- Assisted **50+** customers daily with electronics selections.
- Managed and coordinated store displays.
